...finska's baby brother

finska facts

Finska is enormously popular in Europe with World Championships played annually. Schools love this game - Finska develops numeracy skills without the kids knowing it! Finska has integrity - no plastic, no batteries! Top Finska players are cunning, and focus on the skittles needed for victory by both teams. For those old enough, there's nothing that pairs with some backyard Finska like a couple of cold ones. For some, this is known as the "ginska and finska" happy hour. Finska is suitable for ages 8 and up.

your finska

Finska Mini comes with everything you need to get hooked, including 12 skittles, throwing log, and easy to follow rules. Due to the nature of the game, minor dents may occur, but they should not affect your long-term enjoyment of Finska. We recommend Finska is kept inside in a dry place. If your Finska Mini ever starts to look a little dry it will love a dash of natural timber oil to quench its thirst.

About Us:

Planet Finska are Australia's leading designer and merchant of properly crafted traditional games. Our games are real, not virtual and catalysts for family and friends to socialise, laugh and create memories.

quality matters

Yes, imitation is the greatest form of flattery. But only Original Finska is carefully crafted from 100% select grade birch, a high grade hardwood known for its shock resistant properties. We are fussy about the timber we use and will not use lower grade cuts or cheap softwood such as pine. Original Finska. No compromises. No shortcuts.

chuck wood.

so what is finska

Finska is the must-have log-chucking game from Finland. Based on an ancient game kept secret in the Finnish forests for eons, players must use strategy and skill to knock down 12 numbered skittles in a race to score exactly 50 points and claim victory.

Finska, where every game is different, provides unique and seriously addictive outdoor entertainment at the park, beach, or in your own backyard.

What makes Finska special is it's ability to bring both young and old together for a genuine good time by all. Take Finska to your next picnic, barbecue or family gathering, add a dash of healthy competition and a memorable day of laughter is on the cards. We say skip the electronic gizmos and get outside for some old-fashioned fun with Finska.

what people are saying

"Thanks for getting me onto Finska. Didn't know you could have so much fun with a couple of hunks of wood. We have tested it on the lawn and the beach, with everyone from the kids to nan and pop. All my family and friends love this game."

"In the age of the anti-social video game, it is rare for a game to have such strong appeal for all ages. Finska has a special ability to bring kids, parents and grandparents together for a good old-fashioned contest at the park."

"We love Finska, we play it on the beach, in the park, in the back yard it is so addictive we even played it on Christmas day in the pouring rain! Finska rocks and will always feature on every holiday we go on."
